Customer Reviews

I initially decided to read this book for three reasons: 1) I thought it seemed like an interesting story, 2) it appeared on my school's required-reading list, and 3) I was able to find this SAT-prep version of it! 629 essential SAT words appear in bold throughout the main text and are defined along with synonyms on the lefthand opposite page. Other useful vocabulary words that aren't part of the

SAT-vocab are underlined as they appear and are included in a glossary at the back of the book. For me, reading vocabulary in context is much more helpful than studying hundreds of words separately through flash cards. Other reviewers have mentioned that this version is different from other editions of "Frankenstein" that they have seen before. This could be because the 1831 edition of the book is one of the most widely read versions; this SAT-prep version appears to be derived from the original 1818 edition. There are a some key plot differences between the two, but I don't think that Kaplan's use of a lesser-read (and earlier) version of "Frankenstein" detracts from the main purposes of the book: to entertain and to educate. (Miniture Plot Synopsis): The story opens with a series of letters from a ship's captain, Walton, to his sister Margaret. He is sailing north of the Arctic Circle and his ship becomes surrounded by ice. He notices a man travelling across the ice pursuing a bizarre creature. The man, Victor Frankenstein, ends up coming onboard the ship and relating the strange tale of his life. Walton records Frankenstein's dialogue, which then becomes the narrative of the story. Frankenstein was a bright and intelligent youth and deeply interested in alchemy. He left his family in Switzerland to study modern science in other countries of Europe.
