Series List - Andre Norton - In Order: Novels And Books

Synopsis

This is a quick-reference title list for your kindle or kindle app to help you easily list Andre Norton's novels and books in series reading order. You can pop open the list right from your kindle book list. You don't have to navigate the browser on the device or logon to your PC or laptop or have a printed list lying around to find out which of the authors books to read next. Her works are listed in series chronological order, as quite often they reference characters and places in previous novels and stories. Hopefully you have the Kindle Unlimited subscription and can download it for free. If not, a dollar is a small price to pay for the convenience of this book. TIP: Titles you've read can be "checked off" with the kindle highlight feature. TIP: Turn on Automatic Updates so that this list updates on your kindle when new titles are added. Just to avoid any misunderstandings about copyright, according to the United States Copyright Office, "Copyright law does not protect names, titles, or short phrases or expressions." (copyright.gov, circular 34). I hope you find this made-for-kindle list as helpful as I do in deciding which of the author's books to purchase and enjoy next. The K-Man

Customer Reviews

Exactly as the title says. An organized list of Norton's books. They are listed in series. Some may disagree about how some of the books are organized and there is a large number of singles that could have been organized thematically. Overall a good resource on Norton's work.

I found books listed that I didn't know about, and I thought I knew her books! Now I have more research to do to find them. FUN!

This is a listing of Norton books in series and very helpful as to what to read next. It even lists her non SF series.

One review claimed there was a way to check off books on this list of Andre Norton books. I didn't find that on my Kindle. However the list is handy for fans who want to read series in order of publication.
