Eradication (The Void Wraith Trilogy Book 3)

Synopsis

The Eradication Has BegunThe Eradication has finally begun, and there is little hope of victory. Mankind's fleets are devastated. Their Tigris allies have lost their homeworld, and only a few Primo survive. They need allies, but few are left to be had. Fizgig sets out to persuade the notoriously hostile Jaguara Pride to join the war. Dryker fights a running retreat, losing on every front while the Eye pushes slowly toward Earth. Their only hope is Captain Nolan, leading his squad in a quest to find the legendary Birthplace. There, if ancient Primo myths are right, they will find the vessel known as the Forge. But they are not the only ones seeking it, and if the Void Wraith get there first then all hope is gone.

Customer Reviews

Chris Fox's Void Wraith trilogy just gets better and better. His ideas may not be ground breaking, but it's a fun ride with believable characters. Just the way I like my sci-fi. I look forward to reading his next books.

This was an enjoyable ending for this trilogy. Lots of sacrifices were made and history will continue, for some. If you enjoyed the first two books, you owe it to yourself to see this through to the end.

I doubt anyone is going to pick this book up without having read books one and two, but if you do the author does a great job of bringing you up to date. You really are doing yourself a disservice if you miss the first two books though. Nice finish to the trilogy all our friends from the past two books get together and continue the fight. I want to get a cat and call her the Mighty Fizzig! Good read.

Eradication closes out the wonderfully conceived and executed Void Wraith trilogy. This author uses a very nice technique of beginning each book with a synopsis section of what transpired in the previous novels as an aid reinforcing the story's continuity. I find it very helpful. Like all the books in this series, it's a fast paced sci-fi story and presented in the author's easily flowing style with short chapters leaving you wanting to continue reading onward. Our cast of multi-universe good-guy characters we've all come to admire (and dastardly villainous we despise) with a few new added ones are present and nicely accounted for at the end. Oh, and it has plenty of chase and action sequences across multiple galaxies. This storyline does end nicely but is left with a hint of more to hopefully follow. I certainly look forward to that.

Eradication brings to close the Void Wraith trilogy, but hopefully we'll see more books set in this universe. Like the previous volumes, Eradication is a fast paced sci-fi story with plenty of action. (Could totally see it playing out as a summer action flick) Even though we got some glimpses at the main bad guy in book 2 (Void Wraith) we really get up close and personal this time around, and I have to admit that it brought a smile to my face. I loved the entire over the top nature of what the final enemy is. It brought me back to my childhood, and the hours I spent playing games like Contra and Lifeforce. I'll be looking forward to see what Chris comes up with next.

A great story wrapped up all the Loose Ends I left a little bit hanging case he wants to the sequel it was wonderful to have a forward of the previous two books or synopsis of the previous two books that way we don't have to reread those other two books in the series

What a great series of books. We see that finally Nolan and his team find the Forge and a way to rescue Kathleen. It is her contact with the enemy that gives them a way to end the war. I will look forward to reading more soon.

Again Chris Fox has done it and made something that is unconventional and truly tantalizing. This author is not one to sleep on and this series(along with others) proves this. I had a physical reaction to this book and it seems more like a tv series in the way you could visualize the action, ppl and emotions!
